PREAMBLE

The Federal government runs its business through the efficient and effective operations of the Public Service. In 1970, the Federal Government expanded the scope of the operations of the Public Service from core policy implementation to active participation in all sectors of the economy through the establishment of Agencies, Parastatals, and Commissions. The additional Bodies were to be the drivers of the socio-economic objectives of the Federal Government. Some of them were set up on *ad hoc* basis to address specific challenges.

2. Over the years, the Bodies transmuted into permanent institutions with overlapping functions in some cases, and successive Administrations had further created more Bodies without regard to their efficacy in the attainment of the socio-economic Agenda of the Federal Government leading to escalation in cost of governance.

3. To redress this situation, His Excellency, the President and Commander-in-Chief of the Armed Forces, Dr. Goodluck Ebele Jonathan, GCFR, inaugurated, on the 18th August, 2011, a Seven-Member Presidential Committee to advise on the Restructuring and Rationalization of the Federal Government's Agencies, Parastatals and Commissions.

4. The Presidential Committee comprised of the following members-

(a) Stephen Oronsaye, CFR	<i>Chairman</i>
(b) Japh CT Nwosu	<i>Member</i>
(c) Rabiu D. Abubakar	<i>Member</i>
(d) N. Salman Mann, mni	<i>Member</i>
(e) Hamza A. Tahir, mni	<i>Member</i>
(f) Adetunji Adesunkanmi	<i>Member</i>
(g) Umar A. Mohammed	<i>Member/Secretary</i>

5. The Terms of Reference of the Presidential Committee were as follows:

(a) study and review all previous reports and records on the restructuring of Federal Parastatals and advise on whether they were still relevant;

(b) examine the enabling Acts of all the Federal Agencies, Parastatals and Commissions and classify them into various sectors;

(c) examine critically, the mandate of the existing Federal Agencies, Parastatals and Commissions and determine areas of overlap or duplication of functions and make appropriate recommendations to either restructure, merge or scrap some to eliminate such overlaps, duplications or redundancies; and

(d) advise on any other matter incidental to the foregoing which might be relevant to the desire of Government to prune down the cost of governance.

## 6. SCOPE AND METHODOLOGY

In carrying out its mandate, the Presidential Committee:

- (a) had interactive sessions with Federal Government Ministries, Agencies, Parastatals and Commissions, reviewed their submissions and their mandates;
- (b) referred to previous Reports on Government White Paper on Review, Harmonization and Rationalization of Federal Parastatals, Institutions and Agencies;
- (c) involved major stakeholders within the Public Service;
- (d) sent out templates to Ministries and Offices for comprehensive list of Agencies, Parastatals and Commissions, enabling Acts and Mandates;
- (e) invited memoranda from members of the public through advertisements in four national dailies;
- (f) obtained copies of Appropriation Acts from 2009- 20 II, to ascertain Government financial involvement; and
- (g) dialogued with the Ministries, Agencies, Parastatals and Commissions and leaders of past Administrations and the National Assembly.

## 7. RATIONALE

The rationale for restructuring and rationalization of Agencies, Parastatals and Commission is to meet the global socio-economic challenges which have rendered it inevitable for the Government to cut the cost of governance while ensuring accountability.

## 8. PRINCIPLES

In carrying out the assignment the Presidential Committee was guided by the following principles:

- (a) the economic challenges and the need for Government to make more efficient use of its resources to achieve its development objectives and goals;
- (b) the fact that Nigeria had undertaken reforms in the past;
- (c) it was imperative to reform to meet the challenges of a better socio-political and economic society ;
- (d) there was no need to create another body to perform the functions of an already existing statutory entity. The fact that an institution was inefficient and ineffective should not warrant the creation of a new one; and
- (e) the reform would ensure efficient and effective management of Government structures and functionaries to guarantee better service delivery and good governance.

9. The Presidential Committee observed that the rationalization of Agencies, Parastatals and Commissions would help the Government to reposition the Ministries to supervise the mandates of the Parastatals. It recognized that the Reform would have human dimensions and cost implications and recommended that Government should focus on empowering the MDAs "to do more for less".
